

Stay Aligned – Online Membership

WHAT IS STAY ALIGNED ONLINE MEMBERSHIP?

1. What is “Stay Aligned – Online Membership”?

It is a subscription system whereby a student pays a monthly fee of £70 GBP, and in return receives full access to the online hall, including all online seclusions and weekly live streams given by Anadi.

IS ONLINE MEMBERSHIP STILL BENEFICIAL IF I REGULARLY ATTEND SECLUSIONS IN PERSON?

2. What about when I join a seclusion in person, do I still have to pay the online subscription while I am there?

No. For any time that you spend at a seclusion in person (and are therefore not using the online platform) a portion of your monthly online subscription fee will be refunded accordingly.

2b. What about if I join a seclusion partially in person, and receive access to the rest of the seclusion online as a complementary part of my fee. Will I now be ‘paying’ for this via the subscription?

No, this will still be treated as complimentary, and you will be refunded accordingly.

3. *How much am I saving if I pay a monthly subscription, vs paying for each event separately?*

The amount of 70 pounds per month was calculated to give you a 50% discount annually on the current expenses incurred by attending all the live streams and online seclusions.

4. *If I join most of the seclusions in person, is it still beneficial for me to do online membership?*

If you join a lot of seclusions in person over the year, we will check at registration if, in the last 6 months, you have received the 50% discount on online events. If you have received less than 50% (which would indeed be the case if you join a lot of seclusions in person) we will refund your payment for the physical seclusion further, to make up the difference. In summary, however much you attend seclusions in person, the amount you pay will be adjusted so that you will still continue to receive a 50% discount on online event via this membership.

MISSING LIVE STREAMS AND ONLINE SECLUSIONS

5. *What if I have to miss live streams or online seclusions for other reasons, such as work and family etc. Is it still worth having the membership?*

As part of the membership, unedited recordings of both live stream and seclusion talks are uploaded and made available to you as quickly as possible after they are made, mostly within 12 hours. In this way, you can still stay aligned with the teaching through listening to the talks in your own time.

ATTENDING ONLINE EVENTS VIA THE MEMBERSHIP

12. Once I have my membership, is there any difference in how I join live streams or online seclusions? Or do I just use the same links as I always do?

No, there is no difference. It's the same procedure as it has always been.

Finally, we wish to reiterate that it remains by far preferable to attend seclusions in person, wherever possible, where the potency of energy and potential for transformation remains the strongest. Online seclusions are complementary means of support, which help every student to remain aligned with the evolution of the teaching.
